Marshfield Area United Way

## Help kids reach their full potential...

At Memory Lane Farm, we are treasure hunters. We look for the unique treasures that are found in each of the individuals who we mentor. One of our treasures, Nancy, had been in our mentoring program longer than most, due in part to her past traumas and need to continue to work through challenges and build confidence.

Nancy came to us with significant behavioral concerns. Throughout the months, Nancy came out of her shell. She became more talkative, respectful, engaged, and less combative. **We worked hard to find the little gems of treasures that Nancy could consider successes in her everyday life.** Nancy had progressed to a point where she was making thoughtful decisions and became more compassionate. Confidence and negative self-talk were no longer her enemy. **She now walked with her head held high and is excited for her future.**

We are happy to share that Nancy graduated out of our mentoring program! Nancy is a treasure – it took us a bit to peel off the layers of hurt, trauma and fear – but **Nancy came out on the other side and chose success in her world.** -Memory Lane Farm

**TOGETHER,  
WE CAN...**

## Help families secure their most basic needs...

This story involves a man that United Way helped when he started with our program. The gentleman didn't have any appliances and **United Way stepped in to help.** With the help of United Way and Home Delivered Meals, **this gentleman was able to stay living independently** at home through the meals that were delivered to his door. I have a message on the answering machine that said, "We are going to be friends a good long time. **The volunteers are the sunshine in my days, and the food is the nourishment for my soul.**" -Home Delivered Meals

## Help our neighbors through life's challenges...

Six-year-old Lucy was seen for counseling. Her behaviors were typical of a child that has a trauma history and included: yelling, arguing, lying and tantrums. Lucy was involved in treatment for years and appeared to be stuck.

Lucy finally found the strength and courage to disclose hard memories related to violence. **Lucy talked about the memories and learned positive coping skills.** She started to do better at home with her family and making good choices. She started to do better at school; her grades improved and she had better interactions with friends. **She completely transformed into a happy, confident young woman.**

Lucy recently successfully graduated from counseling! Her last session was a celebration because of the hard work and positive changes she made. This case shows how much impact trauma can have on incredible children. It shows the challenges of building positive safe relationships with children who have been hurt and have significant trust issues. **And it is a reminder of how much United Way support helps meet the mental health needs in our community.** -Children's Wisconsin
